PROFESSIONAL SUMMARY

AI & Backend Engineer with 1+ year of experience designing and developing scalable backend systems, RESTful APIs, automation platforms, and AI-powered applications. Experienced in Node.js, Express.js, MongoDB, RabbitMQ, PostgreSQL, OpenAI APIs, and third-party integrations. Skilled in authentication, authorization, asynchronous processing, messaging automation, and production issue resolution. Passionate about building reliable, scalable, and intelligent software solutions.

TECHNICAL SKILLS

- Languages:** JavaScript (ES6+), TypeScript (Basic)
- Backend:** Node.js, Express.js, REST APIs, Authentication & Authorization, RBAC, Rate Limiting, Webhooks, Background Jobs, JWT
- Databases & Messaging & Queues:** MongoDB, PostgreSQL (Basic), Redis (Basic), RabbitMQ
- APIs & Integrations:** OpenAI API, Meta WhatsApp Cloud API, Razorpay Payment Gateway
- Frontend:** React.js (Basic), HTML5 (Basic), CSS (Basic), GrapesJS
- Tools:** Git, GitHub, Postman, VS Code

PROFESSIONAL EXPERIENCE

Software Developer - Backend

Zevotria

Jan 2025 – Present

Madurai, Tamil Nadu

- Developed and maintained scalable REST APIs using Node.js, Express.js, and MongoDB.
- Implemented authentication, authorization, and role-based access control (RBAC).
- Designed rate-limited API architectures to improve security and traffic management.
- Built asynchronous processing workflows using RabbitMQ for background job execution.
- Integrated OpenAI API, Meta WhatsApp Cloud API, and Razorpay payment gateway.
- Developed webhook-based event processing systems and automation workflows.
- Built email notification systems and scheduled campaign automation features.
- Debugged production issues and improved overall system reliability and performance.

Key Products Worked On:

CareerPro – AI-Powered Career Management Platform

- Built backend APIs for AI-powered resume generation, LinkedIn optimization, interview preparation, and job tracking using Node.js, Express.js, and MongoDB.
- Integrated OpenAI APIs, authentication, subscription management, and usage tracking to support scalable AI career services.

Inderact – WhatsApp Business Automation Platform

- Developed WhatsApp automation solutions using Meta WhatsApp Cloud API, including automated replies, campaign management, and messaging workflows.
- Implemented RabbitMQ-based background processing, webhook handling, and scalable event-driven backend services.

Kellygang.AI – AI Movie Creation Platform (Ongoing)

- Building AI-powered movie creation platform, including script generation, storyboard generation, and asset management.
- Integrating LLM, image generation, and video generation APIs to automate creative content production pipelines.

Frontend Intern

Lithi Info Tech

Jan 2024 – April 2024

Madurai, Tamil Nadu

- Implemented React.js fundamentals and built reusable UI components.
- Assisted in debugging and feature enhancement.

PERSONAL PROJECTS

Website Builder Platform – Full Stack Web Application -

<https://github.com/Sonaravikumar/website>

Built a no-code website builder using React.js, GrapesJS, Node.js, Express.js, and MongoDB with website creation, editing, and publishing capabilities. (Live Demo: <https://website-builder-2026.netlify.app>)

AI Gen Studio – AI Marketing Content Platform

Developed backend APIs for AI-powered marketing content generation, post ideation, and automation workflows using Node.js and Express.js. API Demo: <https://aigenstudio-server.onrender.com/>

CERTIFICATIONS

- Getting Started with NodeJS – Simplilearn SkillUp (June 2025)
- Introduction to Express JS – Simplilearn SkillUp (June 2025)
- AI For India 2.0 – GUVI(August 2023)
- HTML Training — Spoken Tutorial Project, IIT Bombay(June 2021)

EDUCATION

M.Sc. Computer Science | Thiagarajar College of Arts and Science | 2024 | CGPA: 8.6

B.Sc. Information Technology | Nadar Mahajana Sangam S. Vellaichamy Nadar College | 2022 | CGPA: 8.3
